

### Neuralgia of the Heart

Vanquished by Dr. Miles' Remedies.

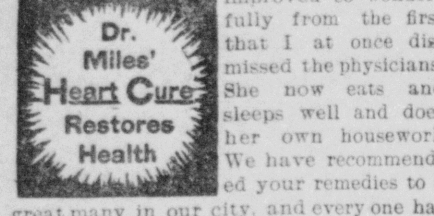

MRS. STIDLEY, of Torrington, Conn., suffered from just such a complication of diseases as the extensive experience and investigations of Dr. Miles have proven, result from impairment of the nervous system. My wife was taken sick with neuralgia of the heart, nervous exhaustion and liver trouble. Although attended by two physicians she grew worse, until she was at death's door. I then began giving her Dr. Miles' Restorative Nerve and Heart Cure, and she improved so wonderfully from the first that I at once dismissed the physicians. She now eats and sleeps well and does her own housework. We have recommended your remedies to a great many in our city, and every one has been very much benefited by them.

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on Heart and Nerve sent free to all applicants.

### BUSINESS REVIVING.

All over the land factories are increasing their forces, merchants are adding to their goods, and public confidence is growing stronger because of the general belief in the enactment of the new republican tariff at an early date.—New York Advertiser.

From an advertisement inserted in the December issue of The Housewife at a cost of less than \$75, the Peterson Magazine Co. received over 430 orders at one dollar each.

The Michigan legislature is framing a law for the recovery of damages from a county where a lynching takes place by the relatives of the victim. Considering that Michigan has had only two lynchings in the last fifty years, this law can hardly be in answer to a crying necessity.

The republicans of the Kentucky legislature have only one thing to do to save their credit and that is to elect a republican United States senator. They have it in their power to do this and they have no excuse that will justify putting mere personal preference above duty to the party.

Attention is called to an article from the New York Sun in another column, discussing Governor Mount. It is an illustration of the good opinion which our governor is gaining all over the country, and the national attention he is attracting thus early in his career. Indiana will long be proud of the farmer from Montgomery county if he keeps up his present record as we believe he will.

SALISBURY'S government refuses to take part in the blockade of the ports of Greece in concert with Russia and Germany. Public opinion in sympathy with Greece has compelled the government to back down from its plan of aiding the powers in this movement. Public opinion has made itself felt in England, France and Italy and sooner or later it will be felt in the more autocratic powers of Germany, Russia and Austria.

The recent decisions of the supreme court against railroad pools, following soon after the decision sustaining the Indiana law taxing corporations, show that there is nothing in the populist charge that the judiciary is wedded to the support of corporations. The worst that can be said of the courts is that they sometimes give too much consideration to technicalities and hair-splitting distinctions, but in these great cases the supreme court decided against the corporations on broad lines.—Journal.

Old "Fort Thurbur," the little sentry box which Cleveland had set up on the white house grounds for his personal protection has been ordered removed by President McKinley. The latter is not afraid of the people nor does he exclude himself from them. He is one of them and mingles with them in a way that calls forth the pleasing comment of Washington papers. They are glad to have again a president who does not exclude himself and who is not afraid to touch elbows with the every day men of the world.

While the manufacture of cotton goods is fast passing from New England to the south, the former section is turning its attention to the manufacture of line goods in which line it can compete with anybody. How soon the transfer will be effected depends on circumstances that cannot be foretold with any degree of accuracy. So great an industrial change must necessarily occupy a good many years. That the south must ultimately have something like a monopoly—a natural monopoly—of the cotton business in all its departments and details has long been evident to those who have intelligently studied the subject.

### THE NEW LIBRARIAN.

Prof. W. E. Henry, of Franklin College, who was chosen state librarian yesterday is one of the best known educators in the state and takes rank with the leaders. He has considerable experience both in public school and college work. He takes a keen interest in educational work in general in the state and his work and worth are widely recognized. His work at Franklin college in the chair of English has been highly satisfactory. To the Franklin people he has proved himself an able and popular teacher. They will give him up with reluctance. His qualifications for state librarian are superior. Under his management the people of the state may expect the library to be of more general utility than it ever has been.

### OUR FARMER-GOVERNOR.

Sample of things That are Being Said About Him in the East.

The Farmer-Governor is usually regarded with distrust nowadays, thanks to the vagaries of populism. It is pleasant, therefore, to record the very favorable impression that James A. Mount, the farmer-governor of Indiana, is making upon the people of the state, irrespective of party. Mr. Mount is such a quiet, retiring, and undersized man that the politicians did not give him credit for force of character and that independence of spirit known as "backbone" when he went to Indianapolis. In fact, they passed the word round that Mount would be an "easy mark." They began by snubbing and ignoring him, and finished by respecting and consulting him. The little man had a will and a mind of his own, and he did not yield to pressure. He sought advice so intelligently and learned so quickly that the politicians soon realized that they could not "fool" the sheep breeder from Montgomery county. He had not been long in office before some of their pet measures were vetoed, and he shed abuse as a duck sheds water. Such a man had to be reckoned with.

As an illustration of the governor's firmness was his action on the county treasurers' bill by which those officers were to receive a large sum in so called back pay. Gov. Mount was solemnly warned that a veto of this measure would be the signing of his political death warrant. But he was not impressed; he vetoed the bill. On another occasion he refused to withhold a veto of the Wolf lake harbor bill until a delegation of Chicago and Hammond citizens could arrive to reason with him. He believed the bill was wrong, and within a few minutes after the attempt to "hold him up" he vetoed it. One of the projects which the party leaders were bent on pushing through the legislature was the ousting of the democrats from the control of the state hospitals. A bill providing that the board in each institution should consist of two republicans and one democrat was passed and received the governor's signature. The politicians were elated with their success, believing that the institutions would, with the right kind of manipulation, become political machines. The governor has taken the wind out of their sails, however, by announcing his intention to appoint only those republicans who will agree not to remove the present superintendents, all of whom are capable men and are indorsed by the state board of charities.

In his habits and office rules this farmer-governor has revolutionized things at Indianapolis. He is in his office by 6:30 a. m. and often remains there until late at night. His private secretary and other capitol employees have not been able to work as long and as hard as the governor, and he does not insist upon their following his example. He says that, being a farmer, it is no hardship for him to get up with the birds. He receives everybody who wants to see him, but shows favoritism to none. Congressmen and state senators long since learned that "a little note" was not an open sesame. They have to take their turn in line with other visitors. James A. Mount is a man of whom the farmers have ample reason to be proud. With his good sense, gentle firmness and unostentatious democracy he is doing much to relieve the farmer's name from the opprobrium which the crochets of populism have cast upon it.—New York Evening Sun.

### FILED A STATEMENT

State Statistician Thompson Has No Vouchers For a Large Sum.

INDIANAPOLIS, March 26.—State Statistician Thompson late yesterday placed in the hands of Governor Mount a statement in which he admits that he is unable to show vouchers for \$1,200 of the state's money drawn by him. The governor last night dictated to his stenographer the following statement: The governor says that Simeon J. Thompson has, through his attorney, filed with him a statement, and that he is under consideration. He declines to make known the contents of the statement, but says that tomorrow he will give the subject careful consideration, and when he shall have reached a conclusion will give to the public both the statement and his decision in the case, but declines to be interviewed pending his investigation and decision.

### MAKES AN ASSIGNMENT.

Order of Equity Assigns For the Benefit of Creditors.

INDIANAPOLIS, March 26.—Late yesterday the supreme officers of the Order of Equity made an assignment to Jesse H. Blair for the benefit of creditors.

### SUGAR BEET CULTIVATION.

Indiana Syndicate Formed to Develop the Industry in Kankakee Swamps.

LAPORTE, Ind., March 26.—An Indiana syndicate has been formed for development of the sugar beet industry on a gigantic scale in the Kankakee valley. It is proposed to establish an immense plant. Investigation has established that the cultivation of beets can be carried on with profit, and the drainage of the marsh region, which will reclaim 1,000 acres of productive land, will open an immense area for the development of this industry.

### PAULINE MARKHAM RECEIVES DAMAGES.

LOUISVILLE, March 26.—The court of appeals at Frankfort yesterday affirmed the decision in the lower court, giving the once famous actress, Pauline Markham, \$6,000 damages for a broken leg, sustained by falling in a cellar in this city while going to the depot about four years ago. The suit was against the city and the contractors who were doing the excavating for the cellar.

### MRS. PINKHAM'S VICTORY

Straitforward Declaration by Mrs. Sidney Hamlet.

After Since Junction of Girlhood and Womanhood Cured by Lydia E. Pinkham's Vegetable Compound Physicians Pronounced the Case "Prolapsus Uteri"—Could Not Walk Without Pain—Words Inadequate to Express Her Gratitude for Relief Received.

RED HOUSE, VA.—To Mrs. Pinkham: "My heart goes out in sympathy to all who are suffering with troubles peculiar to the female sex. I would like to express my gratitude for what your Vegetable Compound has done for me. I have been a sufferer since girlhood, did not then know the cause of dreadful sick headaches and other troubles. I could not take long walks, lift or carry anything heavy, and was very nervous. Last summer I was almost an invalid, could not walk across my room without pain. I sent for your physician. He pronounced my case a bad one of 'Prolapsus Uteri,' congestion and ulceration of the womb, and said I was to lie a-bed. I was so distressed to find myself so helpless and useless to my family. I saw your Compound advertised and thought I would try it. I took fourteen bottles and used the Sanative Wash and Pills as directed, and now I am as strong as I ever was, and do all my own housework. I can walk more than a mile without any inconvenience. Oh! I am truly grateful. I cannot write the good you have done me. Words are inadequate to express it. May God bless you for the good you are doing, Mrs. Sidney Hamlet, Red House, Va."

This case is a good illustration of perseverance and faith. Mrs. Hamlet's sickness was severe, it took courage and patience to master the disease, but in good time the Compound produced the happy result as it will always do. The more difficult the case, however, the longer it will take to cure it—many women lose courage before the medicine has time to thoroughly "take hold" of the system.

### JUDGMENT AGAINST A SALOONKEEPER.

SALEM, O., March 25.—Judge Smith overruled the motion for a new trial in the case of Mrs. Edward Gibson against Charles Morrison, saloonist. The plaintiff a week ago secured judgment against Morrison for \$1,000 for selling liquor to her husband, an habitual. Mrs. Gibson has brought suit against William A. and Lydia Moff to subject the saloon property to the payment of the above judgment.

### MEETING OF SONS OF AMERICAN VETERANS.

MARION, Ind., March 26.—The Sons of Veterans held a big campfire here last night. Delegates were here from Anderson, Muncie, Geneva, Portland, Decatur, Frankfort, Kokomo, Jerome, Greentown, North Manchester and Wabash. The meeting was the preliminary step to the state encampment, which will be held here July 7, 8 and 9.

### WALLING'S REMAINS.

HAMILTON, O., March 26.—The relatives of Alonzo Walling have not made any decision as to the day and hour of the funeral of the executed murderer. No minister has been engaged and it has not been decided whether the remains will be interred at Mt. Carmel, Ind., or elsewhere.

### COAL MINE BURNING.

STURGIS, Ky., March 26.—The Cumberland coal mines near here are burning. All efforts to stop the fire have proved futile. The fire is back 300 yards from the main entrance and caught from a miner's lamp. It is feared that an explosion may occur at any time by the flames igniting the gas.

### ATTEMPT TO BLOW UP A MILL.

LEXINGTON, Ky., March 26.—When the engineer at Williamson & Bros.' planing mill went to light his fire he found a stick of dynamite, capped and fused in the coal heap and so placed as to make almost certain an explosion. No clew as to how it came there.

### AWARDED DAMAGES.

RUSHVILLE, Ind., March 26.—William Potter, plaintiff in a damage suit against the McFarlane Cattle company, was awarded \$3,000 damages yesterday by a jury. Potter had three fingers taken off by a rip saw.

### NEW IRON ORE POOL

Rockefeller, Carnegie and the Minnesota Company Not Represented.

CLEVELAND, March 25.—Immediately following the failure to revive the old iron ore pool a new one was formed. It is composed exclusively of operators on the old Bessemer ranges who met in Cleveland yesterday and agreed to enter into the new agreement. They appointed a committee to arrange the details and report at a meeting to be held a week hence. The Minnesota company, Rockefeller and Carnegie are not represented in the new pool.

### EXPLOSION IN A MINE.

WILKESBARRE, Pa., March 25.—An explosion of gas occurred in a borehole at No. 2 mine of the Delaware and Hudson Coal company, and a sheet of flame fully 70 feet high shot into the air. The drill, engine and boiler were destroyed. George St. John, Michael Doyle and John O'Donnell were badly burned about the face and hands.

### CHURCHES OF CHRIST CONVENTION.

LEBANON, Ind., March 26.—The Churches of Christ will hold their semi-annual convention in this city April 13, 14 and 15.

### ONE THOUSAND MINERS WILL GET WORK.

LOUISIA, Ky., March 26.—The operators in the new canal coal fields on Greasy creek announce that they will put 1,000 miners at work April 1.

### CHILD FATALLY BURNED.

ELWOOD, Ind., March 26.—The clothing of William Solsby's little son was ignited while playing around a fire and he was fatally burned.

### SET FIRE TO FORTY BUILDINGS.

CLEVELAND, March 26.—William Ingless, under arrest here for incendiary, confessed to having set fire to 40 buildings in Detroit.

### WHEN BILIOUS OR COSTIVE, EAT A CASCA.

ret, candy cathartic, cure guaranteed 10c, 25c.

Marvelous Results

From a letter written by Rev. J. Gunderman, of Dimmondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist church at Rives Junction she was brought down with pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery. It was quick in its work and highly satisfactory in results." Trial bottle free at W. F. Peter's, successor to J. H. Andrews & Co. Drug Store.

Came Near Causing the Wreck of No. 1.

Much excitement prevailed about the depot just before noon today. No. 1 was past due and several were anxiously waiting its coming. When it did come and was within a hundred yards of the station, J. A. Webber, clerk at the New Lynn, discovered that just ahead was an open switch. Being near, he sprang to it, caught the lever and closed the switch in time to prevent a wreck. His presence of mind and quickness of action made him the hero of the hour.

It is understood that the switch had been opened for the accommodation of the wrecking train and through neglect or misunderstanding had not been closed.

A Drover's Sad Experience.

This morning's Enquirer states that Marcus F. Bennett, of near Sparksville, living in Washington county, arrived in Cincinnati yesterday with two car loads of stock. He sold his stock for \$939, and then hired a hack in order to see the sights. About 10 o'clock last night he wound up by falling into the hands of the police. Bennett had just 20 cents left. He was looked up for safe keeping as the police feared that some one might relieve him of his clothing.

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alternative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison, headache, indigestion, constipation, dizziness, yield to Electric Bitters. Try it once. 50c and \$1.00 per bottle at W. F. Peter's successor to J. H. Andrews & Co., Drug Store.

He was a section hand on the J., M. & I. and was pushing a car of ties across the bridge and losing his balance fell through the bridge into the water and sank out of sight. His comrades were unable to find the body at the time.

## John R. McLean's Great Newspaper.

Without a single exception, there is beyond doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; or a more successful publisher than its proprietor, Mr. John R. McLean. The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as those of greater magnitude.

## CITY COUNCIL.

Much Routine Business Transacted.—More Improvements Decided Upon.

Council met in regular session last night with mayor and all councilmen present.

Minutes of previous meeting read by clerk and approved.

In the matter of the claim of A. D. Shields against the city for damage, the committee asked for further time to prepare their report.

Schwing said that the grade committee had asked for bids on cleaning out ditch in west part of city between Branch and Second streets but contractor had thrown up the job. Moved that the street commissioner be instructed to do the work.

D. Golyer said street lights were frequently not burning on dark and rainy nights and that the matter needed some attention.

Goodale reported that the improvement committee had investigated the matter of the petition relating to the location of a proposed slaughter and advised that since there was no residence closer than 1500 or 2000 feet to the proposed site that the prayer of the petitioners be not granted.

Goodale also reported for improvement committee that they had examined the brick house on lot one, block B, and recommended that the owner be directed to make repairs in order to make it absolutely safe.

The city attorney said that he had examined the law relative to licensing the sale of cigarettes. That the statutes of Indiana do not in express terms, or in his opinion by necessary implication grant to cities the right to license the business of selling tobacco in any form. No city in the state can lawfully exact a license fee from any business unless the legislature has conferred upon it the power to do so, therefore the pending ordinance would be invalid.

Lorenzo T. Garrell, through his attorney, J. M. Lewis, Jr., filed a claim of \$50 against the city for alleged damage to a horse from stepping into a hole on Laurel street. Claim referred to committee on accounts and claims with city attorney.

A petition signed by the property owners on West 5th street asking for protection from the overflow of water in that locality was presented. Referred to street commissioner and city engineer.

Bergdoll presented an ordinance granting the American Telegraph and Telephone Company right of way through the city. Advanced to second reading and under suspension of rules ordinance was adopted.

DeGolyer presented an ordinance to grade Vine street from Laurel street south. Under suspension of rules ordinance was read second time and then put on its passage. Adopted.

Price offered a resolution to pave sidewalk on west side of Indianapolis avenue between Second and Third streets. Adopted.

Price offered a resolution to improve sidewalk on west side of Pine street between Second and Branch streets. Adopted.

Also another to improve sidewalk on north side of Sixth street between Walnut street and Indianapolis avenue.

Schwing introduced an ordinance to grade alley running east and west through block two, Blush's addition.

Schwing presented a resolution to pave with brick the alley running east and west through block K, which alley is at the rear of the stores of the John C. Groub Co., Cordes Bros. and others. Adopted.

Schwing also introduced a resolution to gravel Seventh street west from Chestnut street. Adopted.

Under miscellaneous business Burkley proposed a new plan for carrying water across streets, which was referred to city engineer.

On motion of Burkley the city at torney was instructed to communicate with the proper officials of the B. & O. S. W. and the P., C. C. & St. L. and arrange for a conference between them and city officials relative to the matter of street improvement.

A number of the councilmen asked for some specific repairs on streets in their wards.

The contract for furnishing gravel to the city having expired, the council decided to put the matter into the hands of the street commissioner with instructions to divide the work up among the several teamsters.

Claims amounting to \$297.55 were allowed.

When bilious or costive, eat a Castor oil, candy cathartic, cure guaranteed 10c., 25c.

## Gotten Out Safely.

Two of our popular young ladies got themselves into a serious predicament the other day. They started to Azalia in a buggy and on reaching Sandy Branch, a small slough, they got out of the buggy and attempted to lead the horse over. They had gone but a few steps when they went down nearly to their waists in quicksand. Some boys seeing the ladies' dilemma raised an alarm and men came to their relief and were compelled to pry the unfortunate young ladies out of their perilous situation. Fortunately no damage was done.

## ANCIENT WATER HEATERS.

People Two Thousand Years Ago Had Some Practical Conventions.

In two of the museums of old-Roman antiquities at Naples there are several water heaters, which indicate that the principle of the water tube, the crowning feature of modern boilers, was fully understood and appreciated some 2,000 years ago. Mr. W. T. Bonner of Cincinnati has been investigating these heaters and found them to be as interesting as they are beautiful. One of them consists of an outer shell 12 inches in diameter and nearly 17 inches high, surmounted by a somewhat hemispherical shaped top. Inside this shell is an internal cylinder, also having a hemispherical top, which is 10 inches in diameter and 12 inches high. The two shells are connected at the bottom by a rim, like the mud ring of a locomotive firebox, and the space between them was filled with water. The grate was formed of seven tubes made from sheet bronze, rolled and soldered or brazed. These tubes open at both ends into the bottom of the space between the shells, thus forming a water tube grate for the fuel to rest upon.

Charcoal was probably used with this heater and was placed on the grate through an opening 4.8 inches high and 4 inches wide, closed by a beautifully decorated door. The gases from the fire escaped into the outer air through three small openings formed by tubes crossing from the inner to the outer shell about 5.6 inches above the grate. The whole apparatus was raised about 12 inches on a tripod so as to allow air to reach the fuel. In another boiler of somewhat the same type the outer shell has the form of an urn, while the inner shell rises from a water tube grate to an opening in the side. It is 12 inches in diameter at the widest part, 17.6 inches high and supported on a tripod about 4 inches high. Its general shape is much like that of the silver cream pitchers known as the Paul Revere patterns, although, of course, it is much larger and has a top closed by a lid. It has been suggested that these utensils may have served at some time to heat wine as well as water, which suggestion appears reasonable, as many historians state that the Pompeians made great use of hot drinks. It may be that they were found in one of the thermopoli or cafes, of which there were several in Pompeii.—Boston Transcript.

## HOW TO FIND OUT.

Fill a bottle or common water glass with urine and let it stand twenty-four hours; a sediment or settling indicates a diseased condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

## What to do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp Root, the great kidney remedy, fulfills every wish in relieving pain in back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and sealing pain passing it or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and extraordinary effect of Swamp Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists price fifty cents and one dollar. For a sample bottle and pamphlet, both sent free by mail, mention the Seymour Republican, and send your full post-office address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its genuineness.

## BIMETALLISTS' VIEWS

Senator Walcott on Japan Adopting the Gold Standard.

### CLOSE OF THE TARIFF DEBATE.

Amendment Stage of the Bill Reached. Bankruptcy Measure Under Consideration in the Senate—Application of the Civil Service Rules Not Embarassing to River and Harbor Work.

WASHINGTON, March 26.—Senator Walcott, who has interested himself so much in international bimetalism, expressed the opinion yesterday that the recent action of Japan in attempting to depreciate silver would hasten international action to restore the equality of the two metals, and made the following statement, giving his reasons for this belief:

SENATOR WALCOTT.

The monetary situation in Japan is not only interesting, but most far reaching, and perhaps not generally understood. The result which Japan seeks is to make permanent, the depreciation of silver in relation to gold and to preserve thereby the advantages which this depreciation naturally gives to Japanese agriculture and Japanese industries, is not in any sense an attempt to equalize values. There was a time in the history of the United States when we might have taken a step identical with that which Japan now proposes. If, during the years of our civil war, when our money was worth but 50 per cent of the gold dollar, we had by law declared that henceforth our dollar should be of the value of 50 cents only in gold, our legislation would have been parallel with that which Japan evidently intends. We choose to follow a different path. The action of Japan accords in a measure with that of Austria a few years since, and with the action projected in Russia with this difference: Austria forced the permanent depreciation of its money, measured in gold, to the extent of some 16 per cent; Russia will establish a reduction of about 33 per cent in the value of its rouble, while Japan proposes to permanently depreciate its exchange, relative to gold, so as to lower the value of the yen to about 48 cents on the dollar. The action of Japan must not be construed as an attempt to establish and maintain a gold standard; it is simply an attempt to preserve the economic advantages which she at present enjoys, because of the gold premium which exists in Japan, and this at the expense of the great commercial countries of the world which have heretofore maintained the stability of their coinage as well as their financial integrity. Of course, at the present price of silver, measured by the value of the dollar, the action of Japan would be to drive all its silver out of that country. It is premature, however, to attempt to forecast the full effect of her action in this respect. The course of Japan must, in my opinion, only serve to hasten some agreement between the leading commercial nations of the world looking to a settlement of this question upon an international basis.

**WILL CAUSE A BOOM.**  
Breaking the Ore Pool Will Let Loose Millions of Tons.

CLEVELAND, March 26.—The general impression among ironmen here is that the breaking of the ore pool will cause a big boom in the production of the upper lake mines. It is predicted that the shipments of ore to the lower lakes during the coming season will aggregate 12,000,000 tons and present indications are that most of this will be consumed at the furnaces which have been awaiting an adjustment of the affairs of the producers before resuming operations.

### WORLD'S RECORD.

Gabriel Hollender Smashes It In a Six Hundred-Yard Dash.

NEW YORK, March 26.—Gabriel G. Hollender broke the world's indoor record for 600 yards at the Twenty-second regiment games last night. The race was a handicap and Hollender, who is the Metropolitan half-mile champion, was on scratch. Gabe was in fine shape and when the pistol was fired he jumped away like a scared antelope. He passed all of the handicap men before the last lap bell was rung. Then he started to sprint. The three watches made the time 1:16 2-5, which broke the armory and the world's indoor records.

### North Indiana Conference.

KOKOMO, Ind., March 26.—The northern Indiana Methodist conference devoted yesterday largely to business. The reports of the six presiding elders showed a healthy condition of the church, financially and spiritually. The committees to hear charges against Rev. W. D. Smith of Middlebury and Rev. Walters of Point Isabel reported the charges not sustained.

### Peoria Wants Cavalry Troops.

SPRINGFIELD, Ills., March 26.—A Peoria delegation has waited on Adjutant General Reece to ask that a cavalry troop be organized at that place. General Reece replied that this could not be done, as only two were provided by the law. An effort will be made to secure a cavalry troop at Peoria by an amendment to the law.

### Bucketshops Win.

CHICAGO, March 26.—In the circuit court Judge Horton refused to dissolve the temporary injunction against the telegraph companies and the board of trade, restraining them from removing quotations to a number of firms and quotations. The decision is a practical victory for the bucketshops.

### Mayor Marshal Wins at Elkwood Park.

NEW YORK, March 26.—Thomas Marshall, for 12 years mayor of Keithsburg, Ills., won the fifth annual grand American handicap which was shot at Elkwood Park yesterday, having killed 23 birds straight. His nearest competitors were Dr. H. C. Koegel of Newark and Dr. W. E. Carver of Chicago, each of whom lost a bird.

### It Was a Fake Story.

CRAWFORDSVILLE, Ind., March 26.—The story telegraphed from here that John C. Wampler had found his wife's father in Missouri, and had been presented with a wedding gift of \$50,000 is not a fact. Mrs. Wampler's father is a laborer in Illinois.

### Marion Bribery Case.

MARION, Ind., March 26.—The state concluded its testimony in the bribery case yesterday and late in the day the defense commenced taking evidence. It is thought, unless there is a postponement for the purpose of securing the attendance of Witness Howard, the case will go to the jury by tonight.

### Pool Selling.

ALBANY, N. Y., March 26.—Today the assembly general law committee reported favorably the bill to permit the selling of pools at trotting meetings.

### John L. Wants to Fight Bob.

BOSTON, March 26.—Frank V. Dunn, manager for John L. Sullivan, posted \$1,000 last night with a temporary stakeholder to bind a match with Bob Fitzsimmons.

The night session of the house was without incident, only 40 members being present.

### CIVIL SERVICE RULES.

Their Applicability to River and Harbor Work Not Embarassing.

WASHINGTON, March 26.—In compliance with a resolution of the senate the civil service committee has prepared a statement relative to the application of the civil service rules to river and harbor operations. After referring to the extension of the service to this work the committee says: "It is manifest that so far as the commission is concerned there has been since May 6, 1896, no cause for delay or embarrassment in filling vacancs in the engineer department at large or in carrying on the operations in charge of that department. As for the future it is not seen how the provisions of the civil service law and rules can interfere with or embarrass the operations in charge of that department."

### RAILROAD POOLS.

More Withdrawals From Traffic Association—No Rate Cutting.

CHICAGO, March 26.—The Chicago and Northwestern, the Missouri Pacific and the St. Louis and San Francisco roads have filed notice of withdrawal from all the traffic associations of which they were members. The Louisville and St. Louis Air Line also withdrew from the Southern States Freight association of which it was a member. The more the decision of the supreme court is considered, the more clearly does it appear that not a vestige of ground is left traffic associations as they have heretofore been conducted on which to exist. All that now remains for the roads to do is to direct their energies to securing legislation that will open some way for them to conserve their interests and prevent their revenues from being dissipated by mad competition. None of the associations attempted to do any business yesterday. As yet no rate cutting has been resorted to as a result of the collapse of the associations.

### WILL CAUSE A BOOM.

Breaking the Ore Pool Will Let Loose Millions of Tons.

CLEVELAND, March 26.—The general impression among ironmen here is that the breaking of the ore pool will cause a big boom in the production of the upper lake mines. It is predicted that the shipments of ore to the lower lakes during the coming season will aggregate 12,000,000 tons and present indications are that most of this will be consumed at the furnaces which have been awaiting an adjustment of the affairs of the producers before resuming operations.

### WORLD'S RECORD.

Gabriel Hollender Smashes It In a Six Hundred-Yard Dash.

NEW YORK, March 26.—Gabriel G. Hollender broke the world's indoor record for 600 yards at the Twenty-second regiment games last night. The race was a handicap and Hollender, who is the Metropolitan half-mile champion, was on scratch. Gabe was in fine shape and when the pistol was fired he jumped away like a scared antelope. He passed all of the handicap men before the last lap bell was rung. Then he started to sprint. The three watches made the time 1:16 2-5, which broke the armory and the world's indoor records.

### North Indiana Conference.

KOKOMO, Ind., March 26.—The northern Indiana Methodist conference devoted yesterday largely to business. The reports of the six presiding elders showed a healthy condition of the church, financially and spiritually. The committees to hear charges against Rev. W. D. Smith of Middlebury and Rev. Walters of Point Isabel reported the charges not sustained.

### Peoria Wants Cavalry Troops.

SPRINGFIELD, Ills., March 26.—A Peoria delegation has waited on Adjutant General Reece to ask that a cavalry troop be organized at that place. General Reece replied that this could not be done, as only two were provided by the law. An effort will be made to secure a cavalry troop at Peoria by an amendment to the law.

### Bucketshops Win.

CHICAGO, March 26.—In the circuit court Judge Horton refused to dissolve the temporary injunction against the telegraph companies and the board of trade, restraining them from removing quotations to a number of firms and quotations. The decision is a practical victory for the bucketshops.

### Mayor Marshal Wins at Elkwood Park.

NEW YORK, March 26.—Thomas Marshall, for 12 years mayor of Keithsburg, Ills., won the fifth annual grand American handicap which was shot at Elkwood Park yesterday, having killed 23 birds straight. His nearest competitors were Dr. H. C. Koegel of Newark and Dr. W. E. Carver of Chicago, each of whom lost a bird.

### It Was a Fake Story.

CRAWFORDSVILLE, Ind., March 26.—The story telegraphed from here that John C. Wampler had found his wife's father in Missouri, and had been presented with a wedding gift of \$50,000 is not a fact. Mrs. Wampler's father is a laborer in Illinois.

## HAS THE WAR BEGUN

Cretans Dynamite a Blockhouse and Are Shelled By Turkish Ships.

### NOT DETERRED BY BLOCKADE.

Great Excitement in Athens—King George Appoints the Crown Prince Commander-in-Chief and Harries Him to the Front—Cretans Demand the Clergy Cease Praying For the Czar.

CANEA, Island of Crete, March 26.—Last night the insurgents succeeded in blowing up the blockhouse at Malaxa with dynamite. The whole structure was burned, and the Turkish warships bombarded the insurgents.

The fleets fired 90 shells upon the insurgents around Malaxa, and some of these fell inside the blockhouse. Of the Turkish garrison, numbering 64, one escaped to Nerohari and 18 others to Suda. It is believed that the others perished.

### DON'T FEAR THE BLOCKADE.

Christians in Crete Care Nothing For the Admirals' Pleas.

ATHENS, March 26.—The news of the dynamiting of the Malaxa blockhouse last night as the culmination of a day of fierce fighting and a prolonged siege, has made a tremendous sensation here. It is regarded as an event of far-reaching importance, both in its effect upon the insurgents themselves and upon the Greek mind at this stage of the crisis. It confirms the belief generally entertained here in official circles, as well as by the people at large, that the Christians in Crete are not in the least deterred by the blockade and not in the least beguiled by the appeals of the admirals or the implied arguments of the autonomy proclamation.

Advices from Canea as to the details of the day's fighting show that the insurgents displayed the most desperate valor and left the Turkish garrison of the blockhouse no choice but flight. Evacuation by the Moslems was followed immediately by occupation by the insurgents who were close upon the heels of the flying foe. To hold the blockhouse in the face of a rain of shells from the Turkish warships in Suda bay was impossible. The commander of the insurgents having resolved that as they could not keep it neither should the Moslems, blew the whole structure into fragments with successive heavy charges of dynamite. Last night the long fought for blockhouse was a mass of burning debris.

Immediately on receipt of the news Delavris and the minister of war drove together rapidly to the royal palace, where they had an audience with the king. What happened there can only be guessed at, but one thing is significant, King George and the cabinet have given the consent they had withheld for the last four days to the formal gazing of Crown Prince Constantin as commander-in-chief of the Greek army in Thessaly. The crown prince started for the frontier this morning.

The departure of the Crown Prince can have but one meaning. The Greek government is determined not to accept the terms offered by the powers for a peaceful settlement of the Cretan difficulties. His presence among the troops will have the most exhilarating effect upon them, and it is notice to Turkey that the Greek troops will enter the conflict under the leader of their choice. The step thus taken is momentous. The official Proia denies that the government has made any proposal to the powers respecting Crete beyond its original reply to the identical notes of the powers.

Agitation has begun for the return of the czar's donation for the benefit of Cretan refugees. More than this, the people now demand that the clergy shall cease to pray for the czar. Thousands of signatures are appended to a protest by Cretans against the blockade, which protest runs in part as follows: We, Cretans sojourning in Greece, protest before God and man against the unjust and inhuman death which some of the great potentates of the earth seek to impose by famine upon our fellow countrymen, whose only crime is that they are seeking for freedom as those potentates themselves have formerly done.

When a baby is sent from Heaven to gladden a mother's heart, her welcome is incomplete unless she bestows upon the little visitor an abundance of health and courage to meet life's varying vicissitudes.

A prospective mother's duty to her child as well as herself is to be in the best possible health and physical condition at the time the baby comes.

Hundreds of mothers have received inestimable benefit from Dr. Pierce's Favorite Prescription, the grandest strengthening in the world for delicate women. Taken early during the expectant time, it builds up the entire constitution and gives elastic vigor to the special organism. It shortens confinement; robs delivery of all its dangers and most of its pains, fortifies the mother against accident or relapse and promotes an abundant supply of healthy nourishment for the child.

It is the only preparation of its kind devised by a regularly graduated, skilled specialist of over thirty years experience.

The subject of women's reproductive physiology is comprehensively treated in Dr. Pierce's great thousand-page free book "The People's Common Sense Medical Adviser." The chapter on nursing should be read by every mother. This splendid volume will be sent you paper-bound absolutely free if you send at once in one-cent stamps, to pay the cost of mailing only, to The Dispensary Medical Association, 663 Main Street, Buffalo, N. Y. If French cloth, additional expense of this more beautiful and durable binding. Constipation can be quickly and permanently cured by Dr. Pierce's Pellets.

### AMERICAN VESSELS.

Ships in Cretan Waters May Be Visited and Searched.

LONDON, March 26.—In the house of commons last night the parliamentary secretary of the foreign office, George N. Curzon, replying to a question on the subject of the Cretan blockade as applicable to British and American vessels, said that both British and American ships carrying cargo belonging to Englishmen or Americans and destined for the interior of the island of Crete were liable to be visited, searched and the delivery of the cargo prohibited if, in the opinion of the admirals, such delivery was calculated to prolong the disorders in Crete. Mr. Curzon added that the sanction under which the admirals were thus acting was that of the powers. H. D. Davies (Conservative) asked if the United States had consented to have their ships searched in Cretan waters. Speaker Gully declined to allow the question without notice.

### LEAD AND ZINC.

Mine Discovered Near Lawrenceburg, Ky.—Boom Expected.

LAWRENCEBURG, Ky., March 26.—W. H. Searcy has discovered a lead and zinc mine on the farm of his brother, J. S. Searcy, that gives promise to boom this section. The find was made four miles west of town and the land has been leased by W. H. Searcy, who took samples of the mine's product to Frankfort to be assayed. There is no doubt that it has zinc and lead in more than paying quantities.

### Mayflower Log Will Be Returned.

LONDON, March 26.—An arrangement has been effected by Ambassador Bayard and the archbishops of London and Canterbury whereby the original log of the Mayflower will be returned to the United States.

### L. C. Baker Dead.

ST. LOUIS, March 26.—L. C. Baker, superintendent of the second district of the central division of the Western Union Telegraph company, died here last night at 7 o'clock of heart trouble. He had been sick three weeks. Colonel Baker leaves a widow and eight children. Funeral services will be held here. The interment will be at Little Rock, Ark.

### Boards of Police Commissioners.

INDIANAPOLIS, March 26.—Governor Mount yesterday appointed the boards of police commissioners for Muncie and Richmond as follows: Muncie—L. D. Thomas, D. B. Cammack (Reps.), Victor E. Silverburg (Dem.), Richmond—Isaac A. Gorman, A. G. Ogborn (Reps.), James G. Martin (Dem.).

### To Become a Citizen of the United States.

NEW YORK, March 26.—Mrs. Emma Moss Booth Tucker, the wife of Frederick Booth Tucker, of the salvation army yesterday formally declared her intention to become a citizen of the United States. Mrs. Booth Tucker came here with her husband a year ago. He has already taken out his first papers.

### Joint Traffic Association Case.

WASHINGTON, March 26.—Attorney General McKenna has sent instructions to District Attorney MacFarlane at New York to take an appeal to the United States supreme court from the decision of the circuit court of appeals in the case of the United States against the joint traffic association.

### To Abolish Reciprocity.

OTTAWA, Ont., March 26.—The Dominion parliament met yesterday. Mr. Cowan (Liberal) gave notice of a bill to abolish reciprocity, an alien labor bill modeled on the existing law in the United States, and a bill to amend the immigration laws of Canada.

### Lane After the Fort Wayne Gazette.

Governor Ellerbe of South Carolina has commuted the sentence of Dan Murphy, who murdered Treasurer Cooper of Orangeburg in 1894, to life imprisonment. Murphy was to have been hung today.

## KENTUCKY SENATORSHIP.

Best Judges Say It Is Hunter, Bradley or No Election.

FRANKFORT, Ky., March 26.—Some of Hunter's friends admit to one another that Hunter's fate is sealed, that he cannot be elected, and will today and tomorrow begin to lose votes and will again have to relinquish to another the prize he has so nearly grasped on two occasions. The situation, as understood by outsiders, is that Hunter has reached the high watermark, and can never get the needed two votes and will lose more from today on. The story goes that the administration is going to give Hunter something handsome, withdraw him and have nominated a Hunter man—State Senator Deboe, Yerkes or Holt—and influence his immediate election by the reunited Republicans. There is something in the story. The best judges say it Hunter, Bradley or no election, and most probably the latter.

### Mississippi Continues to Fall.

MEMPHIS, Tenn., March 26.—The river continues to fall and there is a corresponding rise in the spirits of all interested in the prevailing conditions. The continued fair weather is a favorable condition. News received from all points along the Mississippi side indicates that the system of levees is still intact. These dispatches have been received by the Illinois Central road and are authentic. No more breaks are reported on the Arkansas side. All the trains are running out of Memphis on schedule time with two exceptions.

### Kissed the Pope's Foot.

ROME, March 26.—The pope's mass in the throne room of the vatican yesterday was attended by 100 visitors of whom 30 were American pilgrims, mostly clergymen from New York, Massachusetts, Connecticut and New Jersey, conducted by Father Throop. After mass the pope, seated in front of the altar, permitted the pilgrims to kiss his foot, addressing to each a few words which were translated by Father O'Connell, rector of the American college.

### President Changes His Exercise.

WASHINGTON, March 26.—The president took a new form of outdoor exercise late yesterday—in company with Civil Service Commissioner Proctor he went horseback riding. Their route took them into the suburbs and the chief executive greatly enjoyed the cool breezing air. Last night the president attended the annual reception of the National Geographic society at the Arlington hotel.

### Deep Water Sailors.

NEW YORK, March 26.—A mass meeting to demand legislation for the betterment of the condition of American deep water sailors was held last night in Cooper union. Samuel Gompers presided and a large number of labor representatives were present.

### For Loss of a Husband.

EFFINGHAM, Ills., March 26.—Mrs. Lottie Banks has been awarded judgment against the city for \$800 for the death of her husband, which was caused by the caving in of a sewer in which he was working under the direction of the city street commissioner.

### Prince Bismarck.

FRIEDRICHSHAGEN, March 26.—Prince Bismarck is still confined to his house by nervous depression and a gastric disorder. He receives few visitors, but his condition is not regarded as serious.

### Neuralgia of the Heart

Vanquished by Dr. Miles' Remedies.

MRS. SIDLEY, of Torrington, Conn., suffered from just such a complication of diseases as the extensive experience and investigations of Dr. Miles have proven, result from impairment of the nervous system. Mr. J. B. Sidley writes Oct. 25, 1895: "My wife was taken sick with neuralgia of the heart, nervous exhaustion and liver trouble. Although attended by two physicians she grew worse, until she was at death's door. I then began giving her Dr. Miles' Restorative Nervine and Dr. Miles' Heart Cure, and she improved so wonderfully from the first that I at once dismissed the physicians. She now eats and sleeps well and does her own housework. We have recommended your remedies to a great many in our city, and every one has been very much benefited by them."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on Heart and Nerves sent free to all applicants.

### BUSINESS REVIVING.

All over the land factories are increasing their forces, merchants are adding to their goods, and public confidence is growing stronger because of the general belief in the enactment of the new republican tariff at an early date.—New York Advertiser.

From an advertisement inserted in the December issue of The Housewife at a cost of less than \$75, the Peterson Magazine Co. received over 430 orders at one dollar each.

The Michigan legislature is framing a law for the recovery of damages from a county where a lynching takes place by the relatives of the victim. Considering that Michigan has had only two lynchings in the last fifty years, this law can hardly be in answer to a crying necessity.

The republicans of the Kentucky legislature have only one thing to do to save their credit and that is to elect a republican United States senator. They have it in their power to do this and they have no excuse that will justify putting mere personal preference above duty to the party.

ATTENTION is called to an article from the New York Sun in another column, discussing Governor Mount. It is an illustration of the good opinion which our governor is gaining all over the country, and the national attention he is attracting thus early in his career Indiana will long be proud of the farmer from Montgomery county if he keeps up his present record as we believe he will.

SALISBURY'S government refuses to take part in the blockade of the ports of Greece in concert with Russia and Germany. Public opinion in sympathy with Greece has compelled the government to back down from its plan of aiding the powers in this movement. Public opinion has made itself felt in England, France and Italy and sooner or later it will be felt in the more autocratic powers of Germany, Russia and Austria.

The recent decisions of the supreme court against railroad pools, following soon after the decision sustaining the Indiana law taxing corporations, show that there is nothing in the populist charge that the judiciary is wedded to the support of corporations. The worst that can be said of the courts is that they sometimes give too much consideration to technicalities and hair-splitting distinctions, but in these great cases the supreme court decided against the corporations on broad lines.—Journal.

OLD "Fort Thurber," the little sentry box which Cleveland had set up on the white house grounds for his personal protection has been ordered removed by President McKinley. The latter is not afraid of the people nor does he exclude himself from them. He is one of them and mingles with them in a way that calls forth the pleasing comment of Washington papers. They are glad to have again a president who does not exclude himself and who is not afraid to touch elbows with the every day men of the world.

WHILE the manufacture of cotton goods is fast passing from New England to the south, the former section is turning its attention to the manufacture of line goods in which line it can compete with anybody. How soon the transfer will be effected depends on circumstances that cannot be foretold with any degree of accuracy. So great an industrial change must necessarily occupy a good many years. That the south must ultimately have something like a monopoly—a natural monopoly—of the cotton business in all its departments and details has long been evident to those who have intelligently studied the subject.

### THE NEW LIBRARIAN.

Prof. W. E. Henry, of Franklin College, who was chosen state librarian yesterday is one of the best known educators in the state and takes rank with the leaders. He has considerable experience both in public school and college work. He takes a keen interest in educational work in general in the state and his work and worth are widely recognized. His work at Franklin college in the chair of English has been highly satisfactory. To the Franklin people he has proved himself an able and popular teacher. They will give him up with reluctance. His qualifications for state librarian are superior. Under his management the people of the state may expect the library to be of more general utility than it ever has been.

TENNESSEE has taken a good step forward in prison legislation in a bill which provides for a reformatory for juvenile criminals who have hitherto been confined in prison with other convicts.

### OUR FARMER-GOVERNOR.

Sample of things that are Being Said About Him in the East.

The Farmer-Governor is usually regarded with distrust nowadays, thanks to the vagaries of populism. It is pleasant, therefore, to record the very favorable impression that James A. Mount, the farmer-governor of Indiana, is making upon the people of the state, irrespective of party. Mr. Mount is such a quiet, retiring, and undersized man that the politicians did not give him credit for force of character and that independence of spirit known as "backbone" when he went to Indianapolis. In fact, they passed the word round that Mount would be an "easy mark." They began by snubbing and ignoring him, and finished by respecting and consulting him. The little man had a will and a mind of his own, and he did not yield to pressure. He sought advice so intelligently and learned so quickly that the politicians soon realized that they could not "fool" the sheep breeder from Montgomery county. He had not been long in office before some of their pet measures were vetoed, and he shed abuse as a duck sheds water. Such a man had to be reckoned with.

As an illustration of the governor's firmness was his action on the county treasurers' bill by which those officers were to receive a large sum in so called back pay. Gov. Mount was solemnly warned that a veto of this measure would be the signing of his political death warrant. But he was not impressed; he vetoed the bill. On another occasion he refused to withhold a veto of the Wolf lake harbor bill until a delegation of Chicago and Hammond citizens could arrive to reason with him. He believed the bill was wrong, and within a few minutes after the attempt to "hold him up" he vetoed it. One of the projects which the party leaders were bent on pushing through the legislature was the ousting of the democrats from the control of the state hospitals. A bill providing that the board in each institution should consist of two republicans and one democrat was passed and received the governor's signature. The politicians were elated with their success, believing that the institutions would, with the right kind of manipulation, become political machines. The governor has taken the wind out of their sails, however, by announcing his intention to appoint only those republicans who will agree not to remove the present superintendents, all of whom are capable men and are endorsed by the state board of charities.

In his habits and office rules this farmer-governor has revolutionized things at Indianapolis. He is in his office by 6:30 a. m. and often remains there until late at night. His private secretary and other capitol employees have not been able to work as long and as hard as the governor, and he does not insist upon their following his example. He says that, being a farmer, it is no hardship for him to get up with the birds. He receives everybody who wants to see him, but shows favoritism to none. Congressmen and state senators long since learned that "a little note" was not an open sesame. They have to take their turn in line with other visitors. James A. Mount is a man of whom the farmers have ample reason to be proud. With his good sense, gentle firmness and unostentatious democracy he is doing much to relieve the farmer's name from the opprobrium which the crochets of populism have cast upon it.—New York Evening Sun.

### FILED A STATEMENT

State Statistician Thompson Has No Vouchers For a Large Sum.

### INDIANA SUGAR BEET INDUSTRY.

Strange Fatality of an Indiana Family. Syndicate Will Develop Sugar Beet Culture in Kankakee Swamps—Seven Thousand Dollars For a Life—Child Fatally Burned.

INDIANAPOLIS, March 26.—State Statistician Thompson late yesterday placed in the hands of Governor Mount a statement in which he admits that he is unable to show vouchers for \$1,200 of the state's money drawn by him. The governor last night dictated to his stenographer the following statement: The governor says that Simeon J. Thompson has, through his attorney, filed with him a statement, and that he has under consideration. He declines to make known the contents of the statement, but says that tomorrow he will give the subject careful consideration, and when he shall have reached a conclusion will give to the public both the statement and his decision in the case, but declines to be further interviewed pending his investigation and decision.

### MAKES AN ASSIGNMENT.

Order of Equity Assigns For the Benefit of Creditors.

INDIANAPOLIS, March 26.—Late yesterday the supreme officers of the Order of Equity made an assignment to Jesse H. Blair for the benefit of creditors.

### SUGAR BEET CULTIVATION.

Indiana Syndicate Formed to Develop the Industry in Kankakee Swamps.

LAFORTE, Ind., March 26.—An Indiana syndicate has been formed for development of the sugar beet industry on a gigantic scale in the Kankakee valley. It is proposed to establish an immense plant. Investigation has established that the cultivation of beets can be carried on with profit, and the drainage of the marsh region, which will reclaim 1,000 acres of productive land, will open an immense area for the development of this industry.

Pauline Markham Receives Damages. LOUISVILLE, March 26.—The court of appeals at Frankfort yesterday affirmed the decision in the lower court, giving the once famous actress, Pauline Markham, \$6,000 damages for a broken leg, sustained by falling in a cellar in this city while going to the depot about four years ago. The suit was against the city and the contractors who were doing the excavating for the cellar.

Meeting of Sons of American Revolution. CLEVELAND, March 26.—The committee in charge of the arrangements for the coming national congress of the Society of the Sons of the American Revolution in this city on April 30 and May 1 has about completed its work. It is expected that General Horace Porter, the new ambassador to France, can be secured to deliver the principal address.

Wallings' Remains. HAMILTON, O., March 26.—The relatives of Alouzo Walling have not made any decision as to the day and hour of the funeral of the executed murderer. No minister has been engaged and it has not been decided whether the remains will be interred at Mt. Carmel, Ind., or elsewhere.

Coal Mine Burning. STURGIS, Ky., March 26.—The Cumberland coal mines near here are burning. All efforts to stop the fire have proved futile. The fire is back 300 yards from the main entrance and caught from a miner's lamp. It is feared that an explosion may occur at any time by the flames igniting the gas.

Attempt to Blow Up a Mill. LEXINGTON, Ky., March 26.—When the engineer at Williamson & Bros.' planingmill went to light his fire he found a stick of dynamite, capped and fused in the coal heap and so placed as to make almost certain an explosion. No clue as to how it came there.

Awarded Damages. RUSHVILLE, Ind., March 26.—William Potter, plaintiff in a damage suit against the McFarlane Carriage company, was awarded \$3,000 damages yesterday by a jury. Potter had three fingers taken off by a rip saw.

Big Brewery Deal. DAATON, O., March 26.—There is a big brewery deal on hand here. A European syndicate has an option on six of Dayton's largest breweries, and is trying to land the seventh. The offer for the six breweries is \$35,000,000.

Seven Thousand Dollars For a Life. ROME CITY, Ind., March 26.—William Rosenberry has secured a verdict for \$7,000 against the Lake Shore and Michigan Southern railroad for killing his son.

Ohio Editor Dead. POMEROY, O., March 26.—John V. Webb, associate editor of the Pomeroy Democrat, is dead from the effects of a fall two months ago, in which he fractured his thigh and injured his heart.

Churches of Christ Convention. LEBANON, Ind., March 26.—The Churches of Christ will hold their semi-annual convention in this city April 13, 14 and 15.

One Thousand Miners Will Get Work. LOUISIA, Ky., March 26.—The operators in the new canal coal fields on Greasy creek announce that they will put 1,000 miners at work April 1.

Child Fatally Burned. ELWOOD, Ind., March 26.—The clothing of William Solsby's little son was ignited while playing around a fire and he was fatally burned.

Set Fire to Forty Buildings. CLEVELAND, March 26.—William Ingless, under arrest here for incendiarism, confessed to having set fire to 40 buildings in Detroit.

When bilious or constive, eat a Casca ret, candy cathartic, cure guaranteed 10c., 25c.

Persons who are subject to attacks of bilious colic will be pleased to know that prompt relief may be had by taking Chamberlain's Colic, Cholera and Diarrhoea Remedy, and if taken as soon as the first indication of the disease appears, it will prevent the attack. For sale by C. W. Milhou.

### MRS. PINKHAM'S VICTORY

Straightforward Declaration by Mrs. Sidney Hamlet.

After Since Junction of Girlhood and Womanhood Cured by Lydia E. Pinkham's Vegetable Compound Physicians Pronounced the Case "Prolapsus Uteri"—Could Not Walk Without Pain—Words Transcribe to Express Her Gratitude for Relief Received.

RED HOUSE, VA.—To Mrs. Pinkham: "My heart goes out in sympathy to all who are suffering with troubles peculiar to the female sex. I would like to express my gratitude for what your Vegetable Compound has done for me. I have been a sufferer since girlhood, did not then know the cause of dreadful sick headaches and other troubles. I could not take long walks, lift or carry anything heavy, and was very nervous. Last summer I was almost an invalid, could not walk across my room without pain. I sent for your physician. He pronounced my case a bad one of 'Prolapsus Uteri,' congestion and ulceration of the womb, and said I was to lie a-bed. I was so distressed to find myself so helpless and useless to my family. I saw your Compound advertised and thought I would try it. I took fourteen bottles and used the Sanative Wash and Pills as directed, and now I am as strong as I ever was, and do all my own housework. I can walk more than a mile without any inconvenience. Oh! I am truly grateful. I cannot write the good you have done me. Words are inadequate to express it. May God bless you for the good you are doing. Mrs. Sidney Hamlet, Red House, Va."

This case is a good illustration of perseverance and faith. Mrs. Hamlet's sickness was severe, it took courage and patience to master the disease, but in good time the Compound produced the happy results it will always do. The more difficult the case, however, the longer it will take to cure it—many women lose courage before the medicine has time to thoroughly 'take hold' of the system.

Judgment Against a Saloonkeeper. SALEM, O., March 25.—Judge Smith overruled the motion for a new trial in the case of Mrs. Edward Gibson against Charles Morrison, saloonist. The plaintiff a week ago secured judgment against Morrison for \$1,000 for selling liquor to her husband, an habitual drunkard. Mrs. Gibson has brought suit against William A. and Lydia Moff to subject the saloon property to the payment of the above judgment.

Meeting of Sons of Veterans. MARION, Ind., March 26.—The Sons of Veterans held a big campfire here last night. Delegates were here from Anderson, Muncie, Geneva, Portland, Decatur, Frankfort, Kokomo, Jerome, Greentown, North Manchester and Wabash. The meeting was the preliminary step to the state encampment, which will be held here July 7, 8 and 9.

OPEN SWITCH.

Came Near Causing the Wreck of No. 1.

Much excitement prevailed about the depot just before noon today. No. 1 was past due and several were anxiously waiting its coming. When it did come and was within a hundred yards of the station, J. A. Webber, clerk at the New Lynn, discovered that just ahead was an open switch. Being near, he sprang to it, caught the lever and closed the switch in time to prevent a wreck. His presence of mind and quickness of action made him the hero of the hour.

It is understood that the switch had been opened for the accommodation of the wrecking train and through neglect or misunderstanding had not been closed.

Deafness Cannot Be Cured.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out, and this tube restored to its normal condition or hearing will be destroyed forever, nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Props., Toledo, O. ### A Driver's Sad Experience.

This morning's Enquirer states that Marcus F. Bennett, of near Sparksville, living in Washington county, arrived in Cincinnati yesterday with two car loads of stock. He sold his stock for \$939, and then hired a hack in order to see the sights. About 10 o'clock last night he wound up by falling into the hands of the police. Bennett had just 20 cents left. He was looked up for a keeping as the police feared that some one might relieve him of his clothing.

### Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison, headache, indigestion, constipation, dizziness, yield to Electric Bitters. Try it once. 50c and \$1.00 per bottle at W. F. Peter's successor to J. H. Andrews & Co., Drug Store.

The body of Ben Covert, drowned at Langdon, was not recovered yesterday as was reported but was recovered last night at 8 o'clock and taken to his home at Crothersville. He was a section hand on the J. M. & I. and was pushing a car of ties across the bridge and losing his balance fell through the bridge into the water and sank out of sight. His comrades were unable to find the body at the time.

Brakeman George Colburn, who has been confined to his home with sickness, is better and was able to walk out today.

David Hughes, of Medora, who has been dangerously sick for some time with stomach trouble, is slightly better today.

Mrs. H. B. Goldard came home last evening from a protracted stay at Colorado Springs for poor health. She is much improved.

Mrs. Valentine Vogel, who has been confined to her bed for a month, is now better and she sat up a little yesterday for the first time.

Mrs. Henry C. Beyers and Mrs. Eva Smith were this morning called to Madison to see their mother, Mrs. Mary Schwab, who is in a critical condition with cancer of the breast.

P. H. Overman and Miss Jennie Overman, of near Scottsburg, went last night to Lawrenceburg on account of the death of his daughter, Mrs. Dr. S. H. Collins, with tumor aged thirty-two years.

### Sunday School Work.

A special from Crawfordville states that a house to house canvass has been made in the county directed by the state Sunday school association's executive committee. The work was done by 200 Sunday school workers; 12,000 blanks were used; 28,719 persons were reached, and the total expense was less than \$9. As a result of this canvass, twenty-five new Sunday schools have been organized in the county, and over three thousand enrolled in the Sunday schools who have not been previously connected therewith. Sixty Sunday schools in the county have inaugurated "home departments." There are now over 30 per cent of the people of Montgomery county in the several Sunday schools, a gain of over 11 per cent. The canvass developed that of the 28,719 people reached in Montgomery county, 12,378 were church members and 8,422 are in the Sunday schools. There were 216 families found without bibles, seventy-three of these being located in the Hoosier Athens.

The following applies alike to the aspirant for advertising honors as well as to the rest of mankind. "You may be perfectly sure you will never gain a more acceptable position in the world until you have earned it. Whether it is work, business or pleasure, until you work from self as a centre, putting all the force of your being into making it a success, it will be a failure."—C. S. Brown.

### Dangers of the Grip.

The greatest danger from lagrippe is of its resulting in pneumonia. It is reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for lagrippe, we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that this remedy is a certain preventative of that dread disease. It will effect a permanent cure in less time than any other treatment. The 25 and 50 cent sizes for sale by C. W. Milkous, druggist.

It is a mystery to me why there is not more advertising distributed in the packages which go out of stores generally. Every time a package is sent out without a neat little circular or booklet there is an opportunity wasted. I know that these thing pay. They bring direct returns and they are particularly calculated to do so if the purchases with which they are inclosed have been satisfactory.—Charles Austin Bates.

## John R. McLean's Great Newspaper.

Without a single exception, there is beyond doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; as a more successful publisher than its proprietor, Mr. John R. McLean. The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as those of greater magnitude.

## CITY COUNCIL.

Much Routine Business Transacted.—More Improvements Decided Upon.

Council met in regular session last night with mayor and all councilmen present.

Minutes of previous meeting read by clerk and approved.

In the matter of the claim of A. D. Shields against the city for damage, the committee asked for further time to prepare their report.

Schwing said that the grade committee had asked for bids on cleaning out ditch in west part of city between Branch and Second streets but contractor had thrown up the job. Moved that the street commissioner be instructed to do the work.

DeGolyer said street lights were frequently not burning on dark and rainy nights and that the matter needed some attention.

Goodale reported that the improvement committee had investigated the matter of the petition relating to the location of a proposed slaughter and advised that since there was no residence closer than 1500 or 2000 feet to the proposed site that the prayer of the petitioners be not granted.

Goodale also reported for improvement committee that they had examined the brick house on lot one, block B, and recommended that the owner be directed to make repairs in order to make it absolutely safe.

The city attorney said that he had examined the law relative to licensing the sale of cigarettes. That the statutes of Indiana do not in express terms, or in his opinion by necessary implication grant to cities the right to license the business of selling tobacco in any form. No city in the state can lawfully exact a license fee from any business unless the legislature has conferred upon it the power to do so, therefore the pending ordinance would be invalid.

Lorenzo T. Garrett, through his attorney, J. M. Lewis, Jr., filed a claim of \$50 against the city for alleged damage to a horse from stepping into a hole on Laurel street. Claim referred to committee on accounts and claims with city attorney.

A petition signed by the property owners on West 5th street asking for protection from the overflow of water in that locality was presented. Referred to street commissioner and city engineer.

Bergdoll presented an ordinance granting the American Telegraph and Telephone Company right of way through the city. Advanced to second reading and under suspension of rules ordinance was adopted.

DeGolyer presented an ordinance to grade Vine street from Laurel street south. Under suspension of rules ordinance was read second time and then put on its passage. Adopted.

Price offered a resolution to pave sidewalk on west side of Indianapolis avenue between Second and Third streets. Adopted.

Price offered a resolution to improve sidewalk on west side of Pine street between Second and Branch streets. Adopted.

Also another to improve sidewalk on north side of Sixth street between Walnut street and Indianapolis avenue. Schwing introduced an ordinance to grade alley running east and west through block two, Blush's addition.

Schwing presented a resolution to pave with brick the alley running east and west through block K, which alley is at the rear of the stores of the John C. Groub Co., Cordes Bros. and others. Adopted.

Schwing also introduced a resolution to gravel Seventh street west from Chestnut street. Adopted.

Under miscellaneous business Burkley proposed a new plan for carrying water across streets, which was referred to city engineer.

On motion of Burkley the city attorney was instructed to communicate with the proper officials of the B. & O. S. W. and the P., C. & St. L. and arrange for a conference between them and city officials relative to the matter of street improvement.

A number of the councilmen asked for some specific repairs on streets in their wards.

The contract for furnishing gravel to the city having expired, the council decided to put the matter into the hands of the street commissioner with instructions to divide the work up among the several teamsters.

Claims amounting to \$297.55 were allowed.

When bilious or costive, eat a Castor oil, candy cathartic, cure guaranteed 10c, 25c.

## Gotten Out Safely.

Two of our popular young ladies got themselves into a serious predicament the other day. They started to Azalia in a buggy and on reaching Sandy Branch, a small slough, they got out of the buggy and attempted to lead the horse over. They had gone but a few steps when they went down nearly to their waists in quicksand. Some boys seeing the ladies' dilemma raised an alarm and men came to their relief and were compelled to pry the unfortunate young ladies out of their perilous situation. Fortunately no damage was done.

## ANCIENT WATER HEATERS.

People Two Thousand Years Ago Had Some Practical Conventions.

In two of the museums of old-Roman antiquities at Naples there are several water heaters, which indicate that the principle of the water tube, the crowning feature of modern boilers, was fully understood and appreciated some 2,000 years ago. Mr. W. T. Bonner of Cincinnati has been investigating these heaters and found them to be as interesting as they are beautiful. One of them consists of an outer shell 12 inches in diameter and nearly 17 inches high, surmounted by a somewhat hemispherical shaped top. Inside this shell is an internal cylinder, also having a hemispherical top, which is 10 inches in diameter and 12 inches high. The two shells are connected at the bottom by a rim, like the mud ring of a locomotive firebox, and the space between them was filled with water. The grate was formed of seven tubes made from sheet bronze, rolled and soldered or brazed. These tubes open at both ends into the bottom of the space between the shells, thus forming a water tube grate for the fuel to rest upon.

Charcoal was probably used with this heater and was placed on the grate through an opening 4.8 inches high and 4 inches wide, closed by a beautifully decorated door. The gases from the fire escaped into the outer air through three small openings formed by tubes crossing from the inner to the outer shell about 5.6 inches above the grate. The whole apparatus was raised about 12 inches on a tripod so as to allow air to reach the fuel. In another boiler of somewhat the same type the outer shell has the form of an urn, while the inner shell rises from a water tube grate to an opening in the side. It is 12 inches in diameter at the widest part, 17.6 inches high and supported on a tripod about 4 inches high. Its general shape is much like that of the silver cream pitchers known as the Paul Revere patterns, although, of course, it is much larger and has a top closed by a lid. It has been suggested that these utensils may have served at some time to heat wine as well as water, which suggestion appears reasonable, as many historians state that the Pompeians made great use of hot drinks. It may be that they were found in one of the thermopoli or cafes, of which there were several in Pompeii.—Boston Transcript.

## HOW TO FIND OUT.

Fill a bottle or common water glass with urine and let it stand twenty-four hours; a sediment or settling indicates a diseased condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

What to do.  
There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp Root, the great kidney remedy, fulfills every wish in relieving pain in back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and sealing pain passing it or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and extraordinary effect of Swamp Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists price fifty cents and one dollar. For a sample bottle and pamphlet, both sent free by mail, mention the Seymour Republican, and send your full post-office address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its genuineness.
